

- Oracle Database de aşağıdaki tablo tanımlanacak.
- Spring ile webden basit bir form arayüzü geliştirilecek. Arayüzdeki “Kaydet” butonu ile SUBSCRIBER tablosuna ait bilgiler textbox lardan alınıp database e INSERT edilecek.

```
CREATE TABLE SUBSCRIBER(  
    SUBSC_ID NUMBER,  
    SUBSC_NAME VARCHAR(100),  
    SUBSC_SURNAME VARCHAR(100),  
    MSISDN VARCHAR(100),  
    TARIFF_ID NUMBER,  
    START_DATE DATE,  
);
```

The screenshot shows a web browser window with the address bar displaying 'localhost:8080/subscriber'. The browser's tab bar shows several open tabs, including 'Teknik Ünive...', 'Drive'im - Google...', 'Classroom', 'obs.yildiz.edu.tr/joi...', 'Longman Dictiona...', 'ChatGPT', and 'ahmetsefacetin (A...'. The main content area displays a 'Subscriber Form' with the following fields and values:

- Name: Ahmet Sefa
- Surname: Çetin
- MSISDN: 5455452143
- Tariff ID: 1234
- Start Date: 04.06.2020

A green 'Save' button is located at the bottom of the form.

The screenshot shows an Oracle SQL Developer window with the 'SUBSCRIBER' table selected. The table's columns are listed in the top bar: SUBSC_ID, MSISDN, SUBSC_NAME, START_DATE, SUBSC_SURNAME, and TARIFF_ID. The table's data is displayed in the main area, showing one row with the following values:

SUBSC_ID	MSISDN	SUBSC_NAME	START_DATE	SUBSC_SURNAME	TARIFF_ID
1	5455452143	Ahmet Sefa	04/06/2020	Çetin	1234
